GLARE REDUCTION

Say goodbye to darkened rooms and hello to the sun. With LLumar® Window Film, you can open window coverings wide. You can even choose to have no blinds, shades or draperies at all. Our window film helps temper the sun's undesirable heat, glare and UV rays so you're free to let natural light into any room, any time.

When you have LLumar® Window Film, you can let the sunshine in while reading an e-book, watching television or exploring online. LLumar® helps reduce glare, making your home's interior easier on the eyes.

FADE PROTECTION* AND UV REDUCTION

The materials used to decorate your home are sensitive to the sun, just like your skin. Carpets, upholstery, curtains, artwork, and even your wood flooring and furniture are vulnerable to fading with exposure to sunlight. Fortunately, LLumar® Window Film helps to protect your skin and the things you love. Solar Control films effectively block >99% of harmful UV rays, significantly slowing and reducing the sun's damaging, fading effect.

This helps keep your decor looking fresh and vibrant for many years. The UV rays in sunlight are the greatest cause of fading, while visible light and heat are also contributors. The more these factors are blocked, the longer your furnishings keep the fresh look you love.

* Films do not eliminate fading; they help reduce it. UV rays and heat are contributing factors to fading, but other factors exist.

WORLD CLASS WARRANTY

Our commitment to quality is further emphasised by a factory-backed warranty*.

EASTMAN

Professionally installed LLumar window film is backed by one of the industries best warranties. Certain restrictions apply. See an Authorised Fitment Centre for manufacturer's limited 5-15 year warranty details. © 2020 LLumar South Africa (Pty) Ltd. © 2020 Eastman Performance Films, LLC.
